Choose from our options:

Staff Leasing AVG

Working time, place of work, duration of the assignment, notice periods etc. must be defined in writing.

For companies, who wish to employ freelancers/employees via staff leasing.

It is mandatory that the employer concludes a contract with payroll+ pursuant to AVG Art. 22. The contract pursuant to AVG Art. 19 is concluded between payroll+ and the freelancer/employee.

Employment Contract CO

Freelancer/consultant/contractor receive employment contract in accordance with CO 319.

For freelancers/contractors, who wish to invoice orders as employees of payroll+ via the Onlinetool.

The employment contract in accordance with OR 319. is concluded between payroll+ and the freelancer. The client receives an invoice (B2B) from payroll+ for the work performed by the freelancer/contractor.

PayrollPlus Smart

You conclude your own individual employment contracts with the freelancers/consultants/ contractors.

For companies, private households and startups, who would like to conclude their own employment contracts – but no longer want to worry about salary payments, OASI deductions, child allowances, insurances and everything to do with salaries.

Since payroll+ pays out the salary, PayrollPlus is obliged to pay the OASI contributions.

Important:

The AHV/OASI regularly and specifically audits how companies work with freelancers. If the freelancer generates 50% of his income as a sole proprietorship through an assignment, this makes him/her already economically dependent. This is then considered as a false self-employment case by the AHV.

Solution:

Instead of processing and paying employees and freelancers salaries yourself – as well as OASI, insurances, withholding taxes, child allowances – the total salary costs are simply transferred to the PayrollPlus digital salary platform, so that you can concentrate on your core business.

"As a gamechanger, we are revolutionizing the salary payment process!"
