Liability
Similar to staff leasing, PayrollPlus is in no way liable to the client for the result of the service provided. The employee does not work under the instruction of PayrollPlus but under the instruction and liability of the client, therefore the client is liable for all damages as well as damages towards third parties (Art. 55 and Art. 101 OR). The liability lies exclusively with the client. If third parties make claims against PayrollPlus and its employees as a result of the employee's work, the client is obliged to indemnify PayrollPlus and its employees against such claims. There is no possibility for PayrollPlus to obtain reinsurance. External personnel must be included by the client in the company liability insurance.
